2016 Global Online Fellowship In Head & Neck Surgery and Oncology

Memorial Sloan Kettering
Cancer Center

The Fellowship

There are no current global standards of training, practice and level of care for patients with neoplasms of the Head and Neck. There are significant variations in the quality and levels of care in various geographic locations in the world. The goal of developing a global online fellowship is to create a program to teach and train young surgeons and test their knowledge and thought processes, through which relative uniformity of knowledge base and judgment are measured and certified for specialists, through an online education process, with continuous updating and monitoring of the knowledge base.

The fellowship will involve a commitment of 2 years of self learning through a structured course curriculum, with periodic online examinations as the program progresses, until completion. At the completion of the course curriculum, the candidates will embark upon a 2 month observership and then appear for an oral examination before an international panel of examiners. Upon successful completion of the oral examination a certificate will be issued recognizing the satisfactory completion of the course curriculum, and passing the examination.

Such certification will ensure that the candidate has acquired an established global standard of core knowledge, and matured a judgment process through self education and successful completion of the examination.

Course Curriculum

- Surgical Anatomy
- History and Basic Principles of Head and Neck Surgery
- Epidemiology, Etiology, and Pathology
- Diagnostic Radiology of the Head and Neck
- Tumors of the Scalp, Skin and Melanoma
- Eyelids and Orbit

Oral Examinations

October 2018

Upon Successful Completion

Global Online Fellowship in

Head & Neck Surgery and Oncology

Certificate issued jointly by the

IFHNOS and MSK

Memorial Sloan Kettering
Cancer Center

Examination Dates/Sites

Written - Online (All must be completed)

January, 2017

April, 2017

July, 2017

October, 2017

January, 2018

April, 2018

July, 2018

Oral -On site

October, 2018

Applicants Must Have

1. A minimum of five years of surgical training and Board certification (or equivalent) in the specialty of general surgery, otolaryngology, plastic surgery, maxillofacial surgery, or similar field.
2. Current engagement in Head and Neck Surgery training or practice.
3. Certification and letter of support from the Head of the institution where the candidate conducts his/her clinical activities indicating a commitment by the candidate to the specialty of head and neck surgery and oncology, and current nature and tenure of employment.
4. A complete list of operative procedures performed during the preceding year showing a significant proportion (over 50%) of head and neck cancer/tumor cases, where the candidate was either the operating surgeon or first assistant.
5. Personal statement indicating commitment by the candidate to complete the Fellowship and future career goals to utilize the knowledge gained through this Fellowship.

Application

To apply, please complete the Global Online Fellowship in H&N Surgery and Oncology Application:

www.ifhnos.org/online-fellowship

and submit, along with the required supporting materials (previous), Curriculum Vitae and non-refundable US \$100 application processing fee to:

IFHNOS
The Bobst International Center
160 East 53rd Street, 11th Floor
New York, New York 10022 USA

or via e-mail to:
info@ifhnos.org

Fees

Application Processing Fee:	USD \$100
Course Curriculum & Examination Fee:	USD \$2,500

The Course Curriculum and examination fees may be paid at one time or in 2 installments of USD \$1,250 with the following due dates:

December 1, 2016

December 1, 2017

Methods of Payment:

By Check: Made out to IFHNOS and sent to the address above.

By Credit Card: ifhnos.org/payments

By Wire Transfer: Details at ifhnos.org/payments
